ABOUT US

FOREX.com is a trading name of GAIN Global Markets Inc. which is authorized and regulated by the Cayman Islands Monetary Authority (CIMA). We're part of StoneX Group Inc., a NASDAQ-listed Fortune 100 company with over a century in the financial markets. Combined with our two decades of heritage, you're in good hands. Forex trading involves trading fiat currency pairings and is regulated by financial institutions and governments. On the other hand, crypto trading involves trading digital currencies in a decentralized and unregulated environment.

What is Forex Trading

The foreign exchange (forex or FX) market is a global marketplace for exchanging national currencies. Because of the worldwide reach of trade, commerce, and finance, forex is the world's largest and most liquid asset market. Currencies trade against each other as exchange rate pairs. Forex trading means the process of buying and selling currencies in the foreign exchange market to profit from fluctuations in exchange rates. For example, you can use currency pairs such as EUR/USD, where EUR is the base currency and USD is the quote currency.

What is cryptocurrency

A cryptocurrency is a digital or virtual currency secured by cryptography, which makes it nearly impossible to counterfeit or double-spend. Most cryptocurrencies exist on decentralized networks using blockchain technology—a distributed ledger enforced by a disparate network of computers.

Cryptocurrency (or “crypto”) is a digital currency, such as Bitcoin, that is used as an alternative payment method or speculative investment. Cryptocurrencies get their name from the cryptographic techniques that let people spend them securely without the need for a central government or bank.
